MSBD5053: Quantitative Analysis of Financial Time Series

(2019-2020 Fall)

Instructor

Shiqing Ling

Office Room: 3460
Tel: 2358 7459
Email: maling@ust.hk
Homepage: http://www.math.ust.hk/~maling/

Classroom: Rm 1410, Lift 25-26

Class Time: Sa 2:00PM - 4:50PM

Textbook

Ruey S. Tsay, ***Analysis of Financial Time Series***, 2nd edition (Wiley, 2005).

Grading Policy:

Homework 20%, Project 40% and Final 35%, 5% class attendance

Syllabus and Time table

Ch. 1: Market Indexes, Financial Time Series and their Characteristics (0.5 week)

Ch. 2. Linear Time Series Analysis and Its applications (3.0 weeks)

Ch. 3. Conditional Heteroscedastic Models (2.5 weeks)

Ch. 4. Nonlinear Models and Their Applications. (2 weeks)

Ch. 5. Multivariate Time Series Analysis and Its Applications (1.5 weeks)

Ch. 6. Co-integration Time Series and Its Applications (1 weeks)

Ch. 7. Multivariate Volatility Models and Their Applications (0.5 week)

Ch. 8. Project and Other Topics (2 week)
